

Newsletter Vol.1

Welcome to the 1st Newsletter of the CoEvolution Project!

We are thrilled to welcome you to the very first edition of the CoEvolution newsletter, your go-to source for insights, progress updates, and future plans of our exciting EU-funded initiative.

Enjoy the read, and don't forget to follow us online to stay connected!

Our Pilots

Pilot 1

Securing the AI Supply Chain of Manufacturing Infrastructure

In this pilot, we focus on connected AI components that can be used to manage the logistics of the manufacturing environment as well as the management of the network and edge infrastructure itself. We assume an AI model comes in (e.g., as part of an edge app) from a third-party vendor or other facility. This is either a pretrained AI that still requires a transfer learning step to be adjusted for the new environment, or it can be used as it is.

Pilot 2

Securing the AI Supply Chain in the Autonomous Vehicles Domain

This use case will test CoEvolution's cyber-security engine in multi-agent scenarios involving CAVs that cooperate to establish autonomous navigation and co-operative multi-modal four-dimensional scene awareness in the vicinity of the vehicle. To this end, the use case will adopt early (sensory inputs) and late (AI-leveraged knowledge) fusion approaches to introduce a holistic unified framework for co-operative awareness and Multi-Agent-Path Planning (MAPP), jointly interconnected in an iterative loop.

Our Latest Highlights

CoEvolution Project Kick-Off Meeting: A Strong Start in Athens

The CoEvolution project officially started its 36-month journey at the **kick-off meeting** held in Athens on **November 12-13, 2024**. This two-day event marked the beginning of a collaborative effort to advance AI security and build trusted AI systems, bringing together partners from diverse sectors to contribute their expertise and vision for the project's success.

CoEvolution Plenary Meeting in Cagliari

The CoEvolution **Plenary meeting** took place on **31 March – 1 April 2025** in the beautiful city of Cagliari, Sardinia, bringing together all project partners for two days of insightful discussions and collaborative planning. Hosted in a vibrant setting, the meeting allowed for an in-depth review of the project's progress and a chance to align on next steps for the coming months.

Fostering EU Collaboration: CoEvolution Joins CyberSecDome's Cluster Synergies Webinar

On **15 May 2025**, CoEvolution had the pleasure of participating in the **Cluster Synergies Webinar** organised by the CyberSecDome – EU project. Representing CoEvolution, Dr. Andreas Miaoudakis delivered a presentation introducing the project and its vision, with a particular emphasis on our efforts to enhance cybersecurity through AI-driven solutions.

CyberSecDome
Organised by

Cluster Synergies Webinar

Date
15 May 2025

A graphic illustration for the webinar. It shows several hands in different colors (blue, green, yellow, red, purple) holding and interacting with interlocking gears of various sizes. The gears are also in different colors. In the background, there are logos for CyberSecDome, CoEvolution, and other projects like CONSULE PROJECT, PHOENIX, CUSTODES, and CRACOWI. The overall theme is collaboration and synergy.

Our Latest Highlights

CoEvolution Showcased at CyberHOT 2025 in Chania, Crete

The CoEvolution project proudly took part in the **5th Cybersecurity Hands-On Training (CyberHOT) Summer School**, held on **May 29 – 30, 2025**, in **Chania, Crete**, under the auspices of the Technical University of Crete.

CoEvolution participates in COcyber Online consultation Event

The CoEvolution project was pleased to contribute to the **COcyber Online Consultation**, which took place on **June 13, 2025**, an initiative focused on identifying best practices that strengthen cooperation between cybersecurity and civil-defence sectors across the EU.

Our Latest Highlights

Discover CoEvolution in 3 minutes!

We are excited to share our very first video, a brief introduction to the CoEvolution project, its vision, and what we aim to achieve. This video is now available on our official YouTube channel. It's a great starting point for anyone new to the project or curious to learn more about our mission.

Watch the video and don't forget to **like, share, and subscribe** to stay updated!

Join the CoEvolution Community

Would you like to stay connected with the CoEvolution project and get involved in shaping the future of secure and trustworthy AI?

We are building a vibrant community of stakeholders, who are interested in contributing to or benefiting from our activities. By joining the CoEvolution Community, you will have the opportunity to:

- **Receive exclusive updates and insights from the project**
- **Participate in surveys, workshops, and co-creation sessions**
- **Collaborate on pilot activities and real-world use cases**
- **Share your feedback and help guide our work**

CoEvolution at Zenodo

A community full of research material!

Visit our Zenodo community and get access to all our scientific papers, Datasets, presentations, dissemination materials and deliverable reports.
